X-RAY 1970

Medical College of Virginia
Richmond, Virginia

People, people who need people
are the luckiest people in
the world.

We're children needing other children
And yet, letting our grown up pride
Hide all the need inside,
Acting more like children, than children.

Lovers are very special people,
They're the luckiest people in
the world.

With one person, one very
special person, A
feeling deep in your soul
Says: you were half,
now you're whole.

No more hunger and thirst,
But first, be a person who
needs people.
People who need people
Are the luckiest people in
the world.

Sigma Zeta

Honorary Science Society

Sigma Zeta, a national science honorary society, was formed in 1925, at Shurtleff College in Illinois by a group of young men just out of graduate school, who were interested with the ideals of sound scholarship. MCV received its charter as the third, or Gamma, chapter in 1927. A segment of the wood in the handle of the official national gavel comes from the flooring of the Egyptian Building, the oldest building on our campus. Membership is restricted to junior and senior students of acceptable scholarship in any field of the sciences and mathematics. Gamma Chapter inducts new members in the spring of each year and honors them with a banquet.

Alpha Omega Alpha is an Honorary Medical Society founded at the College of Medicine of the University of Medicine of the University of Illinois in 1902 by William W. Root. The Brown Sequard Chapter at MCV was organized in 1940.

Membership is based on scholarship, personal honesty, and potential leadership. Alumnus membership is granted for distinctive achievement in the art and practice of scientific medicine. Honorary membership is granted to eminent leaders in the field of medicine. A.O.A. has stimulated medical research, the highest educational and ethical standards, as well as the nobler professional ideals.

J. O. Shaw

Rho Chi had its beginning in 1908 when the Anstolochite Society, as the organization was first named, was established at the University of Michigan, Ann Arbor. It declared as its main purpose "to advance pharmaceutical science and promote good fellowship." In 1912 the organization became officially recognized as a campus honorary group. In 1919 a second chapter was established and it became a national organization. In 1922 the name was changed to Rho Chi—the symbol () of which bears a fitting similarity to the prescription sign. Since that time Rho Chi has expanded into sixty-three active chapters across the nation.

Rho Chi

Lambda Chapter was established here at the School of Pharmacy in 1929. It has had as its object the promotion of scholarship, friendship, and the recognition of high attainment in the pharmaceutical sciences. Usual activities consist of a program promoting further study in the pharmaceutical sciences and an annual banquet following initiation of new members.

Things we'll never forget

Gentlemen, you're definitely the most intelligent group we've ever had at this institution ... John Gullett ... Surviving Dr. Kilpatrick's statistics and M and E. Slicko Prout ... Scolex's "Malaria and Campfire girls" ... Tic Toc ... "Double Neck Wing Stretch ... Lucy Wills ... Colony's stretches ... "Which side of the Toll Road do you park on?" ... "It's really not how you do on The service Test, it's your ward performance that counts!" ... Psychiatry run by Paranoid Schizophrenics ... M-70 nurses ... "Paging the OB-GYN student for the West Hospital" ... National and State Boards ... V.C.U. sounds like a social disease ... Take these diplomas and like them.

Alpha Kappa Kappa

Membership in AKK is open to all male medical students. In addition, AKK enjoys the brotherhood and guidance of several doctors of the MCV faculty who are alumni and honorary members of the fraternity. AKK is the largest fraternity in the School of Medicine.

The functions of the fraternity are primarily social for we believe that the best way to change pace is to occasionally take a night out with a date and attend a dance, combo party, picnic, swim party, etc.!! AKK is well known for its timely and enthusiastic social functions. In recognition of a predictably regular increase in the number of brothers acquiring wedding bands, the fraternity also offers the opportunity for wives to participate in the programs of the Wives' Club of AKK.

Phi Chi National Medical Fraternity was founded at the University of Vermont in 1889. The Theta Eta Chapter was established at MCV in March, 1889, as the fourth chapter in the U.S. Phi Chi is now the largest national and international medical fraternity. It was founded to promote the high ideals of scholarship and brotherhood among its members and all of medicine.

Activities of the Theta Eta Chapter include monthly meetings at which noted members of the MCV faculty and prominent Richmond citizens discuss topics of interest to the members and to themselves in an informal atmosphere, Rush parties and smokers, picnics, and Combo parties. Our Wives' Club is active and its members participate in several community-oriented programs during the school year.

Phi Delta Epsilon, a medical fraternity, founded at Cornell in 1904, has had over 20,000 members initiated since that time. There are 43 graduate clubs and 38 undergraduate chapters at present. Among the activities of the national organization are scholarship prizes, service awards, student and intern loans, placement, conventions, insurance programs, a quarterly news magazine, friendship and good fellowship.

This year, Phi Delta Epsilon sponsored several brunches and parties. Dr. Tom Shires delivered the annual Aaron Brown lecture at Surgical Grand Rounds in April. One of our members received an all expense paid trip to the National Convention in Chicago.

Medical Technology 1970

These Med. Techs. have discovered Medical Technology to be full of ... blood samples, bacterial cultures, stool specimens, microscopes and such ... as well as ... popcorn and cokes at school movies ... spontaneous pyramids formed in the hall ... lab practicals in the midst of trash and assorted junk ... ice cream and pizza parlors ... twenty people in the sticking room at once ... instant response to the call "rally!" ... routation questions to do in your spare time ... clotted hematology tubes ... parties and parties and parties ... meeting the "flood victims" one way or another ... first venipunctures ... addiction to bridge and knitting ... the pleasant smells in urinalysis ... crowded telephone booths ... forgetting the tourniquet ... budding romances and everlasting ones ... birthday surprises ... first meal in the caf. in September ... 7:30 Saturday sticking list ... going on a picnic or to the theater ... Halloween costumes ... playboy bunnies ... hot fudge sundaes and watermelon in the school ... B-averages ... football games ... personal acquaintances of Mr. Hester ... disappearing at 5:15 on Friday afternoons. We never knew that Medical Technology could be such an enjoyable experience.

Dentistry 1970

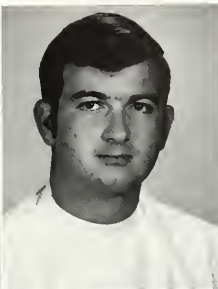

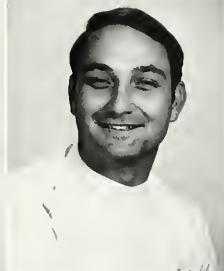

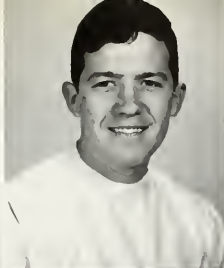

How can we forget:

The freshman year with the Blade, Mother, Magoo, Rosebud, Buns, Ratso, Pavlov, The Pink Panther, The Hog, Roebo, Fat Dog, Fuster, Silent Ken, Ray on the Wagon all sweating it out in C.R.'s wax museum ... Happy Hartwell ... Salisbury's RCH's ... mudpies in dental materials ... decapitation day in gross anatomy ... the "big one" in gross lab ... frog races in physiology ... third quarter golf.

The sophomore year with Henrique the Mad Argentinean ... 100% ... the missing box of slides ... Mother and staph aureus ... MO preps with S curves ... the first rule in cavity preparation ... mesical and sullimental grooves ... Marshall Partial's Denture of the Week Club ... Frog Simon's operative technique ... "Flame it and sprue it." ... \$5.00 reward for flying gold ... the roentgenographic sleeping hour.

The junior year with shaving cream and round toothpicks ... cut those sideburns ... Felix and the silent check ... "Do you need some amalgum, Lanny?" ... section D full up ... "Hello, Lady, have a mint." ... the odd couple.

The senior year with tongue blades, probes, and shade guides ... "We're just as sorry as we can be." ... Mickey Mouse and his fishing rod ... "No notes, Slick." ... "Well lookie here!" ... plane battles ... "Suction, Wheetley, suction." ... The Blue Max and tetracycline stains ... decisions, decisions, ... specialties ... boards and graduation ... then only memories of four terrific years from Mr. to Doctor!!

Delta Sigma Delta

The first fraternity in the field of dentistry was organized November 15, 1882, at the University of Michigan. It selected the letters DDS to designate its dental category. The Greek letters Delta Sigma Delta were adopted instead of the Arabic.

This year has been a particularly active and good one for DDS here at MCV. Much time and energy was spent by the brothers remodeling our fraternity house in preparation for the annual conclave held here in April. Although hosting the conclave was the climax of the year, it did not overshadow our usual yearly activities. This fall we sponsored the second annual

Economic Seminar for the dental school student body which offered advice in financing, insurance, tax structures and investment toward retirement income. Aside from our monthly social parties we held a Christmas party for underprivileged children and sponsored a ski trip to Bryce's Canyon Ski Resort. Finally, we are looking forward to sending off graduating seniors this May with our Senior Banquet which we have each year as our final activity together.

Delta Sigma Delta goes beyond the friendship and relaxation found in all good fraternities. We have as our objective keeping high the standards of dentistry and promoting in the minds of dental students and practitioners a spirit of fraternal cooperation toward scientific, ethical and professional progress.

Psi Omega

Psi Omega is the oldest and largest national Dental Fraternity, having seventy-eight chapters. Gamma Omicron is the MCV Chapter. Its aims are to advance the dental profession, to cultivate the social qualities of members. Psi Omega features monthly meetings with guest speakers. Psi Omega Wives are active with their own meetings and officers. The fraternity is an integral supplement to the D.D.S. degree.

Class of 1971

The central fossa of the occlusal surface is a concave area bounded by the distal slope of the mesiobuccal cusp, both mesial and distal slope of the distal buccal cusp, the mesial slope of the distal cusp, the distal slope of the mesiolingual cusp and the mesial slope of the distolingual cusp ... after two years in liberal arts schools we six made history in the dental building—largest class of women and first class in dental hygiene ... before we could get settled bells were heard as Miss Bell became Mrs. Gibson ... table clinics and trick-or-treat at the John Marshall ... test ... maxi uniforms ... squatty bodies—one half of our class at five feet ... test.

November meant a first-aid course (band-aid)—four of us managed to graduate with degrees in the treatment of shotgun wounds ... test ... ever start a course halfway through ... test ... ever take a quarter course in five short weeks ... lab stools were proclaimed a menace to stockings ... test ... dry sinks ... black soot ... test ... give me eight reasons why this tooth is a maxillary right lateral incisor ... wat is the latest gossip ladies ... test ... Hi gals ... test ... orange demonstration room ... splattered pumice ... glorified cleaning women ... snapping manikins ... test ... put a star by it and underline it ... what could be shapelier than a mandibular canine ... test ... shape up “toofie” ... broken roots ... Dee was awarded a prize as the most creative carver.

Our teeth are about as clean as we can get them—our friends are next ... we look forward to real patients and capping.

Kappa Epsilon

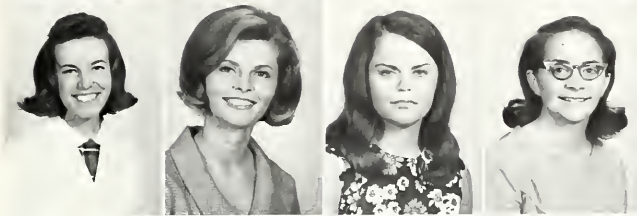

Kappa Epsilon is a national professional fraternity for women in pharmacy which was founded in Iowa City, Iowa on May 13, 1921, by Zada M. Cooper. The Tau Chapter of the Medical College of Virginia was installed on March 20, 1953. The objectives of Kappa Epsilon are to unite women students in pharmacy, to stimulate in its members a desire for high scholarship to foster a professional consciousness, and to provide a bond of lasting loyalty, interest, and friendship.

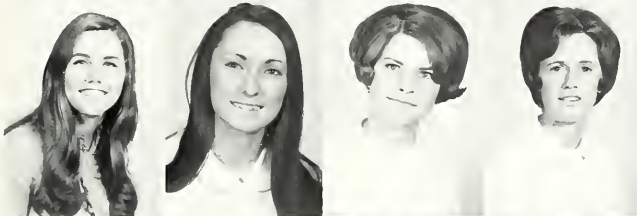

Each year KE goes Christmas caroling to Terrace Hill rest home with the members of Kappa Psi. It also helps Phi Delta Chi give a Christmas party for underprivileged children in the Richmond area. To foster professional consciousness, it sponsors a college bowl in the spring of the year between panels from each of the pharmaceutical fraternities. To honor the new pledges, KE gives a formal in the spring of each year which is financed by proceeds from an ad book. KE is a small but growing fraternity which is looking eagerly to the future with plans to make it dynamic in promoting the professionalism of pharmacy.

Kappa Psi

Kappa Psi Pharmaceutical Fraternity is the nation's oldest and largest professional pharmaceutical fraternity. It is composed of fifty-seven collegiate chapters and was originally chartered in 1879. The aim of the fraternity is to promote the high ideals and standards of the profession and to provide a medium through which students pursuing the course of pharmacy can develop fellowship.

Upon returning to school this fall, the brothers of Kappa Psi have maintained continuous activity in service, professional, and social projects. Socially, Kappa Psi had its annual "Back to School" open dance September 27 and a closed party October 31. January is the month of "rush" functions after which bids for membership are distributed to selected individuals. Initiation of "goats" occurred during the first three weeks of February. The formal banquet is our major social event of the year. This event marks the full acceptance of the new pledges into the fellowship of the fraternity. The annual awards banquet is in April in which outstanding brothers will be recognized and newly elected officers will be installed in their offices for the following academic year.

Phi Delta Chi

Phi Delta Chi Fraternity was founded on November 2, 1883, on the campus of the University of Michigan. The following excerpt from early Fraternity records gives some insight into the reasons for Phi Delta Chi's inception: "Both students and faculty recognized that such an organization would bring students of pharmacy together for the discussion of scientific questions pertaining to pharmacy and its sister sciences." Originally Phi Delta Chi was known as Phi Chi and its membership was limited to men in the fields of pharmacy and chemistry. The name was changed to the present Phi Delta Chi in 1909 and membership requirements were altered between 1928 and 1933 to include only persons majoring in the field of pharmacy. Since its founding, Phi Delta Chi has chartered 55 undergraduate chapters and initiated over 20,000 members.

Alpha Delta Chapter of Phi Delta Chi was chartered in 1925. Under the able leadership and counseling of Mr. Frank P. Pitts, Alpha Delta Chapter became a strong and active organization on the Medical College campus. Today Phi Delta Chi and its Alpha Delta Chapter serve to fulfill the educational, social, recreational, and cultural needs of its members. A strong feeling of brotherhood and common cause exists between all Phi Delta Chi brothers. Upholding and enhancing public confidence in, and respect of the profession of pharmacy are permanent goals of Phi Delta Chi.

Graduate Studies

The jump from college to graduate school is one that few graduate students fully realize until the course work and research tumbles down in the first few weeks of the school year . . .

148 students experienced this for the first time or renewed their experience with graduate work this year . . .

The courses . . . research seminars . . . and committee meetings . . . all leading to the climax for the degree seeker.

But one more hurdle must be jumped—oral and written comprehensives . . . the endless questions . . . and then, at last, that degree is conferred to the former graduate student.

Bioblend® Teeth make any denture look more natural.

Bone-like enamel. Wrap around translucency. Internally blended color. These are just a few of the esthetic refinements which distinguish Bioblend from all other artificial teeth. The result: Bioblend Teeth are now being used more often for complete dentures than any other teeth in the world. *Any other!* Available in porcelain or plastic.

The professional's professional.

You.

In pharmaceuticals, yesterday's information can be obsolete tomorrow. Men of medicine need someone who speaks their language to keep them up to date. Which is where you come in—the professional's professional. And, they'll listen when you talk because the Upjohn name means quality to them. Not only in products but in the men who represent them.

If you welcome a challenge in the pharmaceutical field and if you are the kind of man who wants to earn respect and responsibility in his profession, then Upjohn may be the place for you. Our policy of promoting from within can give you a career that grows with the industry. Our immediate personal benefits are most attractive.

For information about a career with Upjohn write to L. C. Hoft, Director, Domestic Pharmaceutical Sales, The Upjohn Company, Kalamazoo, Michigan 49001.
